IT'S NATIONAL APPRENTICESHIP WEEK

Femi achieved 'distinction' in his Level 5 Leader in Adult Care apprenticeship Standard.

"Completing the course has developed and enhanced my knowledge and skills in the areas of effective partnership working, managing the care of vulnerable individuals, team management, professional supervision practices, health education, and promoting wellbeing.

As part of this I gained my level two maths and English, along with my level 5 diploma... all nationally recognised qualifications.

After completing the course, my organisation noticed and acknowledged the impact of the apprenticeship. They have seen significant changes in practice, and they have also increased my wages. Thanks to my tutor and all at Achieving Excellence UK Ltd!"

## NATIONAL APPRENTICESHIP WEEK

“I have been promoted from Senior Care Professional to Trainer, I have gone from working in the office 3 times a week to 5 days a week full time, I have now taken on the responsibility of training all our current staff members in training like Moving and handling, Medication and Basic life support. Alongside the trainer position, I have responsibility for all our Care Professionals' journey with the company, this includes their first start date when they join the company, and throughout their employment with the company. Gaining my L2 qualification has allowed me to be able to have the confidence to support the staff in their day-to-day life with their clients, the qualification has also helped me to understand the role of a leader and manager. My Level 3 is providing me with the key skills needed in this new position. Having the qualifications has helped me to gain this promotion within my company by having the knowledge and skills to be able to do my job to the best of my ability.”

**Chloe successfully obtained a distinction on her Adult Care Worker Level 2 apprenticeship standard and is now progressing well on her Lead Adult Care Worker level 3!**

“I want to express my sincere gratitude to Achieving Excellence and my tutor, Kim for supporting me in my studies. It has been an unforgettable experience that has significantly expanded my knowledge in childcare. I appreciate the opportunity and effort they have put into teaching, and for the opportunity to learn from such qualified professionals.”

Allison is finishing her Early Years Practitioner Level 5 this year!

**Kinga successfully achieved her Lead Adult Care Worker Level 3 apprenticeship standard!**

“I have recently completed the Apprenticeship Standard Level 3 Lead Adult Care Worker course with Achieving Excellence UK Ltd.

I have been a carer by profession for the past 10 years, but I have cared for my family members for an even greater period of time. I love my job, as I love helping others to feel better.

I have done training on the job, inductions, and additional - specific training modules, but studying for the Level 3 Lead Adult Care Worker gave me a possibility to expand my knowledge to areas I have had no experience with before. I explored new areas of care which I found fascinating and have been inspired to do more research in these areas.

Completing the course gave me more confidence to do my job, to a higher standard than previously and also to be able to help others to do their work. This all contributes to a higher quality of care that we can all provide to the ones who need it.

The course was not easy to manage amongst other time constraints, but it was worth the effort to improve the quality of care I can provide, and also to act as a stepping stone should I want to do Level 5. I would like to thank my tutor and the staff at Achieving Excellence UK Ltd for their full support.”

Julie is finishing her Leader in Care Level 5 apprenticeship standard this year!

“In December 2022 I was a Field Care Supervisor. I was offered to start my level 5 with Achieving Excellence. Since then, I have been working on my qualification with Teresa I have learnt so much. Teresa has been so supportive throughout my journey even when I was struggling with the course work. Teresa suggested several different ways and we found the way for my learning style.

In November 2023 I was promoted to manager which was a huge surprise to me.

All the units Teresa and myself have been working on has assisted me with this transition and if I had not been doing this apprenticeship, I would have never been able to understand or even attempt to become a manager.

I am so grateful that Teresa has been my tutor and mentor as she has been able to keep me positive and confident throughout the course so far.”
